

JUSTICE AYAMDOO

Accra, Ghana | +233597570570 | justice2022aya@gmail.com

Summary

I'm a versatile and creative professional with experience in web development, software development, graphic design, video editing, and CCTV installation. I have a strong portfolio of projects that showcase my skills in creating user-friendly websites, developing innovative software solutions, designing attractive graphics, editing engaging videos, and installing reliable security systems. I'm always eager to learn new technologies and tools to enhance my work. I'm looking for a challenging and rewarding position where I can apply my expertise and contribute to the success of the organization.

Experience

Graphic Designer Nov 2021 to Nov 2023
Self-employed - Accra, Ghana

- Worked with clients to define marketing and design vision for various graphic design projects.
- Designed new, on-brand visual elements focusing on concept and messaging.
- Developed and communicated creative ideas, presenting to team with clarity and enthusiasm.
- Contributed to improving web user experience and conversion goals through compelling design.
- Presented creative design work, took constructive feedback and worked towards positive outcomes.
- Assessed design solutions while balancing needs of multiple stakeholders.

Assistant Network Engineer Jun 2023 to Aug 2023
Maxim Nyansa IT Foundation - Tantra Hills-Achimota, Accra

- Learned about network devices like routers, switches, and access points, and assisted in configuring them to ensure proper network functionality. This includes establishing connectivity and troubleshooting network issues.
- Gained hands-on experience with various hardware components, learning to diagnose and repair hardware-related problems. This includes working with motherboards, processors, memory modules, hard drives, and power supplies.
- Involved in the installation and maintenance of CCTV systems, learning to position cameras, configure settings, and troubleshoot issues for effective surveillance.
- Acquired knowledge about different types of machines such as desktops, laptops, servers, and peripherals. This role involves analyzing system requirements and ensuring optimal hardware performance.

Hardware Technician Assistant Jun 2023 to Aug 2023
Maxim Nyansa - Tantra Hills-Achimota, Accra

- Conducted installations of new software packages, updates and new OS releases, maintaining optimised performance.
- Maintained proper testing and quality control procedures to deliver consistent service.
- Successfully diagnosed and resolved hardware, software and application faults to maintain stability.
